Built from 10305

LEGO 10305 is the Lion Knights' Castle, made for LEGO's 90th birthday as a tribute to the classic castle sets: a hinged fortress of grey stone walls with a drawbridge and a portcullis.

2026

A border watchtower on a crag, every stone from the Lion Knights' own castle.

1 4,515 pieces in LEGO 10305 Lion Knights' Castle (2022).

2 2,712 of them build this model: 60% of the box.

3 Nothing else to buy: every piece comes out of the box.

From the designer

Every part of this watchtower comes out of the 10305 Lion Knights' Castle box. Its masonry bricks climb twenty courses from a dark plinth to a corbelled battlement and a slate roof under the lion's gold finial. A gatehouse with the lion shields guards the bridge over the stream, a curtain wall steps up the rock between them, and the castle's azure water plates become the lake below.
