Built from 75419

LEGO 75419 is the Ultimate Collector Series Death Star: a cutaway battle station packed with scenes from the films. Nearly all of its pieces are grey and black, the colours of the Empire.

2026

Stay on target: the meridian trench, down to the exhaust port.

- 1 9,030 pieces in LEGO 75419 Death Star (2025).
- 2 5,355 of them build this model: 59% of the box.
- 3 Nothing else to buy: every piece comes out of the box.

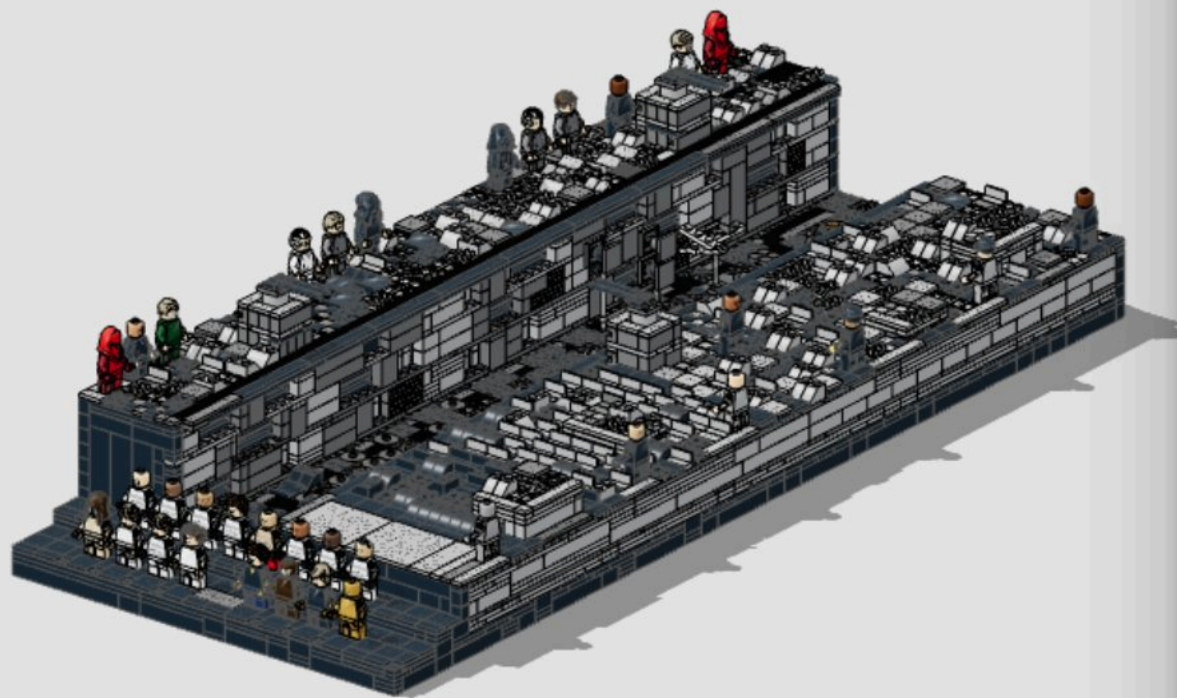

From the designer

A length of the Death Star's meridian trench, built from the very box that makes the station. Its walls are panelled the way the film's miniatures were, in light and dark grey with recesses full of grooved, slotted and Technic bricks turned to show their texture. Turbolaser towers line the surface above, and at the far end of the floor waits the thermal exhaust port, ringed in the box's dark orange vents.

A 3D architectural rendering of a large, multi-story industrial building, possibly a warehouse or factory. The building has a complex roof structure with various sections and a large area of solar panels on the right side. A red line is drawn on the roof, indicating a specific path or boundary. The building is surrounded by a low wall and has a paved area in front.
